Description:

Master storyteller Stephen King (writing as Richard Bachman) presents this gripping and remarkable New York Times bestselling crime novel about a damaged young man who embarks on an ill-advised kidnapping plot—a work as taut and riveting as anything he has ever written. Once upon a time, a fellow named Richard Bachman wrote Blaze on an Olivetti typewriter, then turned the machine over to Stephen King, who used it to write Carrie. Bachman died in 1985 (“cancer of the pseudonym”), but this last gripping Bachman novel resurfaced after being hidden away for decades—an unforgettable crime story tinged with sadness and suspense. Clayton Blaisdell, Jr., was always a small-time delinquent. None too

bright either, thanks to the beatings he got as a kid. Then Blaze met George Rackley, a seasoned pro with a hundred cons and one big idea. The kidnapping should go off without a hitch, with George as the brains behind their dangerous scheme. But there's only one problem by the time the deal goes down, Blaze's partner in crime is dead. Or is he?

Wasn't sure what to think of this one when I started but thought, What the hell, it's Stephen King. I was not disappointed at all. A quick read actually and in my opinion pretty fast paced. A story about a man, who is mentally challenged, that kidnaps a baby boy. His story has quite a bit of heart to it and sadness also. Stephen King has a gift of drawing you in the story and feeling for the characters. This one is no different. You really feel for this man and what is happening with him, and what has happened to him. I highly recommend this book to anyone who really wants an enjoyable read. Will say this, if you are looking for the stereotypical Stephen King horror, you won't find it here. It is just a really good story. Try it out.
